Berhampur, Odisha, India | abhisekpanigrahy79@gmail.com | +91 9348657780 | [linkedin.com/in/abhisek-panigrahy-754877228](https://www.linkedin.com/in/abhisek-panigrahy-754877228)

PROFESSIONAL SUMMARY

Full Stack Engineer with **2+ years of experience** designing, developing, and deploying scalable, production-ready web and mobile applications using the **MERN stack**. Proficient in **React.js, React Native, Next.js, Node.js, Express.js, MongoDB, PostgreSQL**, and **Firebase**. Experienced in building RESTful APIs, GraphQL integrations, real-time notification systems, third-party payment gateway integrations, and role-based access control. Proven ability to deliver end-to-end features in agile, remote, cross-functional teams while maintaining high code quality and performance standards.

TECHNICAL SKILLS

Frontend Development	: React.js, React Native, Next.js, Redux, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Bootstrap 5, Material UI
Backend Development	: Node.js, Express.js, RESTful APIs, GraphQL
Databases	: MongoDB, PostgreSQL, Firebase Firestore
Programming Language	: JavaScript (ES6+)
Tools & Platforms	: Git, GitHub, Firebase, FCM, Razorpay, OpenMoney, Sendgrid, Google Maps API, Directus
Core Competencies	: Agile Methodology, Remote Collaboration, Code Review, Cross-functional Teamwork, Problem Solving

PROFESSIONAL EXPERIENCE

APIE TECH Full Stack Engineer Full-time	Bhubaneswar, Odisha · Remote Dec 2024 – Present 1 yr 6 mos
---	---

- Architect and deploy scalable, production-ready web and mobile applications using the MERN stack.
- Develop and maintain full-stack features across React/React Native frontends and Node.js/Express.js backends.
- Collaborate with cross-functional remote teams in agile sprints — define technical requirements, implement features, and conduct peer code reviews.

Velvet Bai — Home Services Platform

- Engineered end-to-end booking flow, earnings-to-transactions module, SOS functionality, and complete job lifecycle management for dual user and provider roles.
- Integrated Razorpay payment gateway enabling secure online transactions; built dynamic service provider rating and review system.
- Developed a comprehensive admin panel: analytics dashboard, dispute resolution, promotional code engine, exportable reports, and real-time FCM push notifications.
- Delivered a fully responsive, role-based dual-role web application supporting simultaneous user and provider workflows at scale.

Tech Stack: React.js, React Native, Redux, Node.js, Express.js, MongoDB, Razorpay, FCM

CFLRS — Foundational Learning Reporting System

- Designed and integrated Schools module UI within FLNSight, a government education analytics platform.
- Enabled data-driven insights on student learning outcomes through seamless REST API integration.

Tech Stack: React.js, Redux, Node.js, Express.js, MongoDB

IPEL — Digital Repository

- Built REST API integrations for a centralized repository managing project documents, resources, images, and videos.
- Developed real-time dynamic dashboards to monitor and visualize key project initiative metrics.

Tech Stack: React.js, Redux, Node.js, Express.js, MongoDB

Pickup Ninja — Hyper Local Delivery Service

- Developed three application modules — Booking App, Rider App, and Admin Panel — for a hyperlocal pick-and-drop platform.
- Integrated TOOKAN API for real-time GPS tracking; wired FCM push notifications, Sendgrid transactional emails, OpenMoney payments, and Google Maps API.

Tech Stack: React.js, React Native, Next.js, Node.js, Express.js, Firebase Firestore, FCM, Sendgrid, Google Maps API

Novaite — AI-Driven Digital Solutions Platform

- Integrated GraphQL APIs to unify data flows between frontend components and backend services.
- Contributed to automating business operations and enhancing customer engagement using Directus CMS.

Tech Stack: React.js, GraphQL, Directus

CRISP Survey App — Government of Telangana

- Built a government-grade survey application for SWOT analysis, institutional cluster formation, and mentoring program coordination.
- Developed structured workflows enabling the Capacity Building Commission to optimize Deputy Commissioner committee responsibilities.

Tech Stack: Next.js, Tailwind CSS, Node.js, Express.js, Firebase

CODEKART

Bhubaneswar, Odisha · Remote

Web Developer Intern

Dec 2021 – Jul 2022 | 8 mos

Internship

- Developed responsive, accessible UI screens and Single Page Application (SPA) modules as a front-end developer.
- Delivered modular, reusable React components with clean, maintainable code following industry best practices.

CKARE — Clinic Management Web Application

Team Size: 7 members

- Designed and developed a full-featured clinic management SPA enabling service delivery to Pro and Member users.
- Implemented payment gateway integration and barcode generation to streamline clinic operations.

Tech Stack: React.js, Redux, Bootstrap, Material UI

POLITIX — Political Video & Live Streaming Platform

Team Size: 8 members

- Built a video and live-streaming platform for US political news enabling user-generated and moderated content.
- Developed features for content creation, live broadcasting, and moderation to democratize political journalism.

Tech Stack: React.js, Redux, Bootstrap, Material UI

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering

Aug 2020 – Aug 2024

Roland Institute of Technology (RIT), Berhampur | CGPA: 8.5

Class XII — Central Higher Secondary Education (CHSE)

2020

Binayak Acharya College, Berhampur, Odisha | Score: 65%

Class X — Board of Secondary Education (BSE)

2018

Sri Aurobindo Integral Education Centre, Berhampur | Score: 80%
